## OBJECT OF THE GAME/GAME DESCRIPTION

Do you have what it takes to be an agent?

Test your skills, using the Zapper, in Hogan's Alley. There are three quickdraw games to choose from: First, practice making split second identification of the gangsters in a line-up. Next, move into the streets where enemy targets can pop up from anywhere, then show'em your stuff in the Trick Shoot, a rapid fire round for only the toughest G-men.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

## Adjusting the TV screen

\*The TV screen must have its contrast and brightness adjusted properly for this game. If not, shots may not hit the targets.

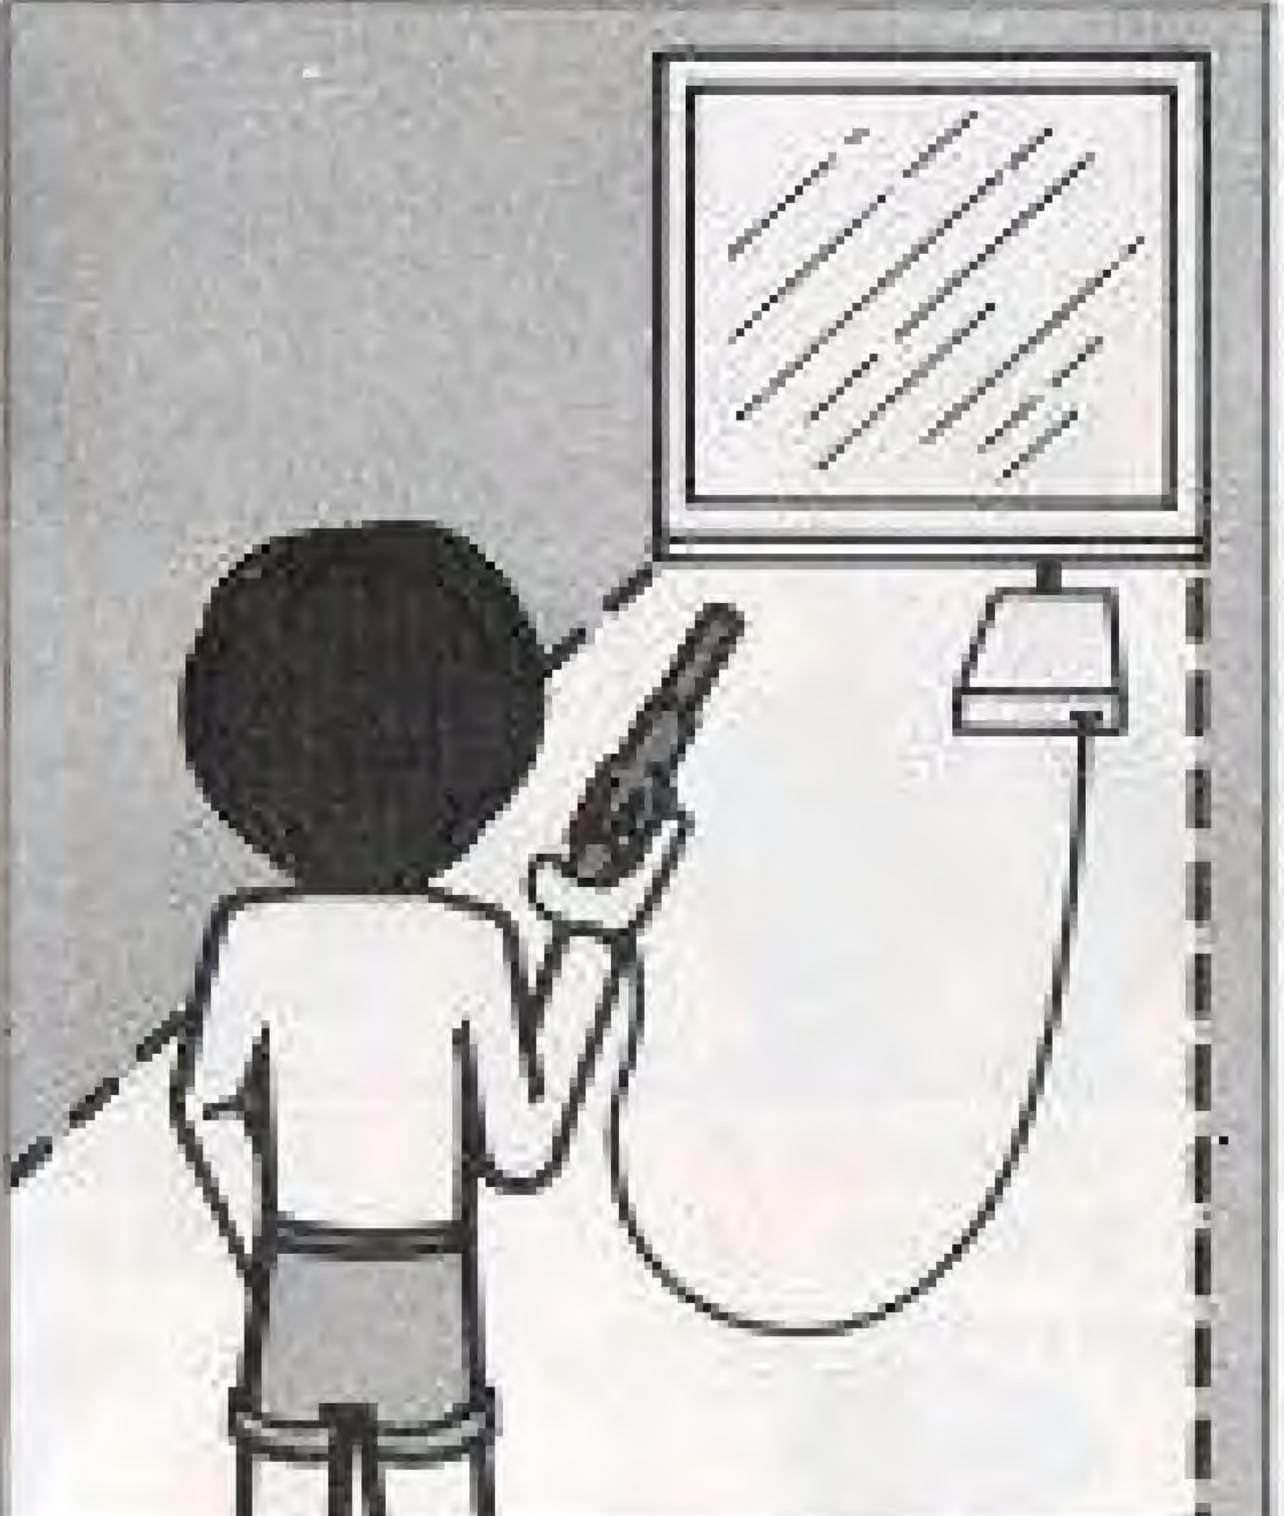

## Selecting and starting games with the Zapper

\*Line up the arrow (→) with the game you wish to play, and then shoot directly at the screen. The game you selected will start.

The game menu is replaced by a game demonstration sequence after a set period of time. If this happens, shoot the Zapper to bring back the title screen, and then make your selection.

\*Some TVs may not be adjusted properly for the game. Please adjust the picture controls if the game doesn't start when the Zapper is fired at the screen.

# 5. HOW TO PLAY

The people who appear on the panels in Game A and Game B are introduced in the demonstration sequence.

Three of the flashing panels are gangsters — shoot them as quickly as you can. The other panels are of a lady, a professor and a policeman — people you must not shoot.

Gangster A 500 pts.

Gangster B 1,000 pts.

Gangster C 2,000 pts.

Lady

Professor

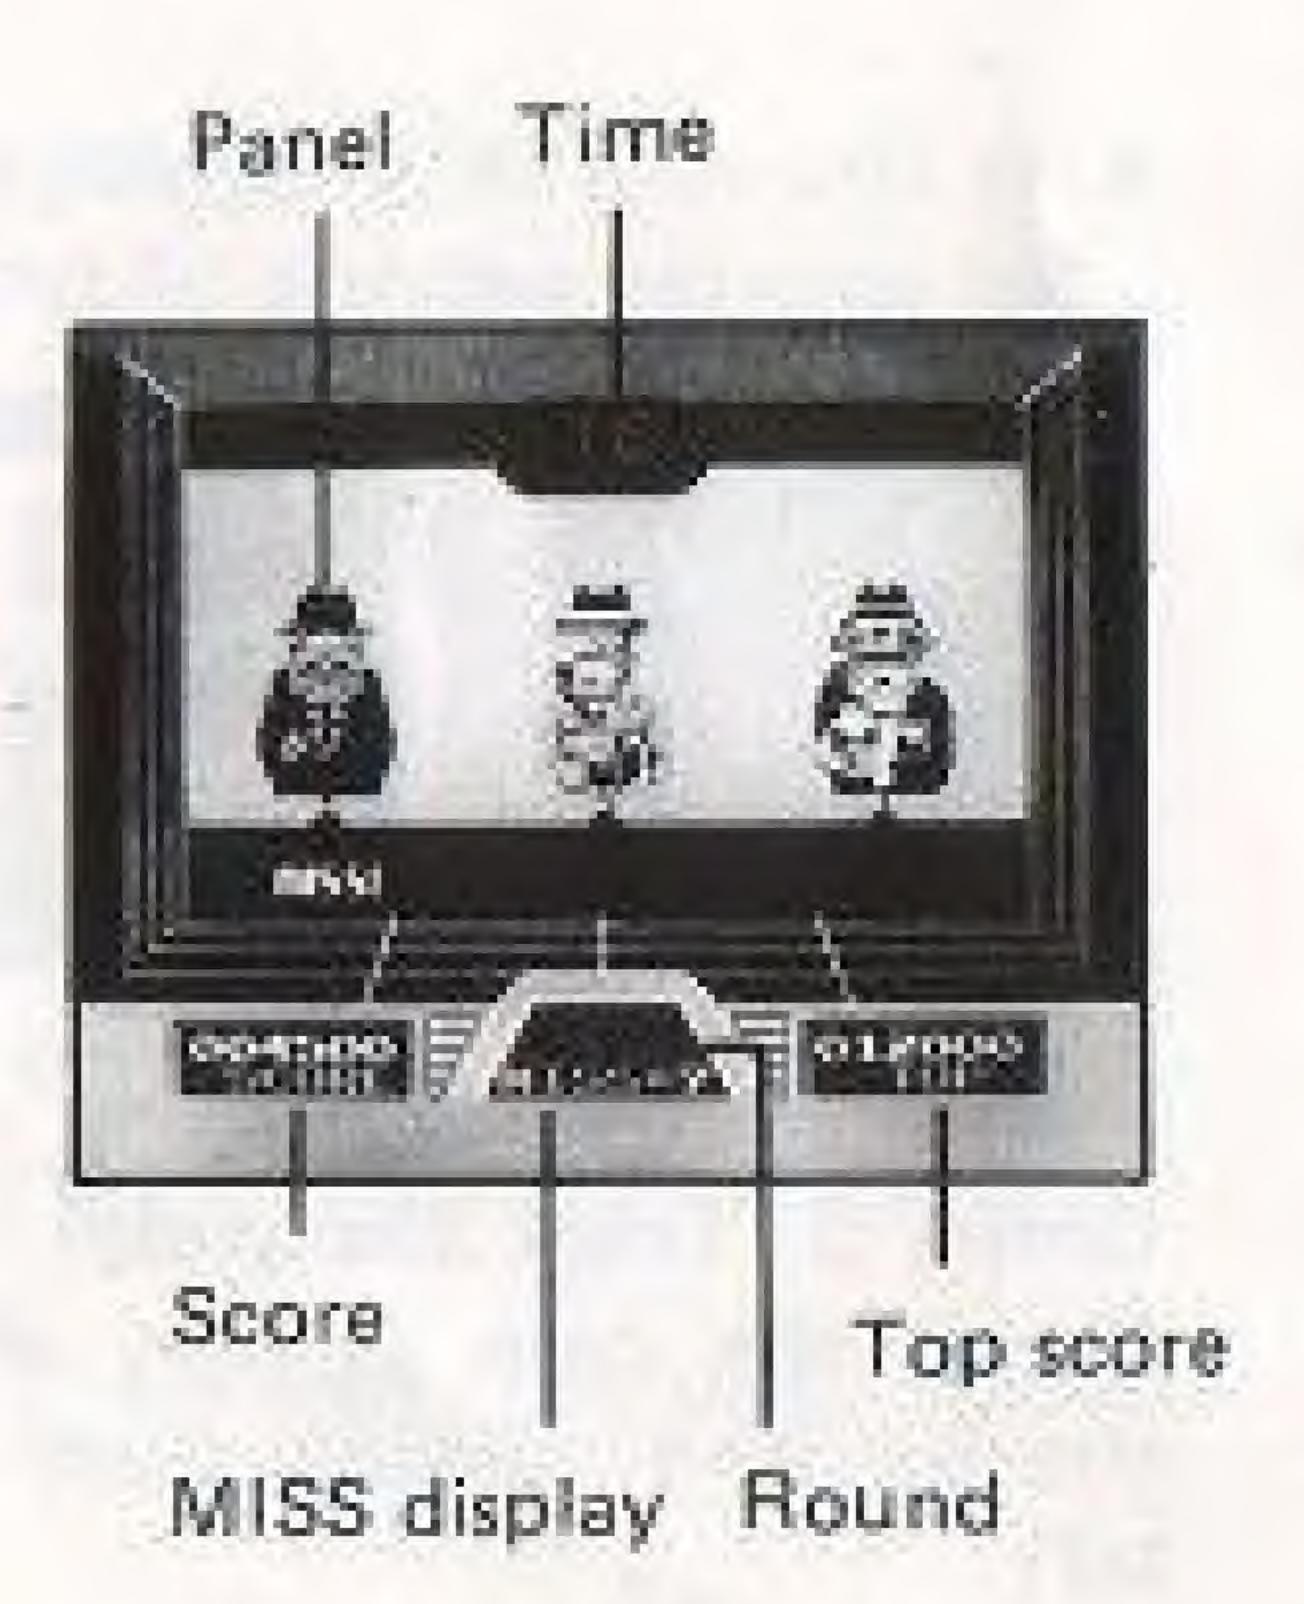

Policeman

## Game A (Hogan's Alley A):

Find the gangster from among the panels, and shoot him.

- Three panels will appear facing sideways.
- All three panels will turn toward the front at the same time. Find the gangster, and shoot him.
- If the panel is hit just right, it will turn around.

- If you shoot anyone other than a gangster, the panel you shoot will flash, and you will be penalized with a MISS.
- You will also be penalized with a MISS if you fail to shoot a gangster that has appeared.
- The display on the top of the screen indicates the number of seconds that the panels face forward.
- The people drawn on the panels (gangsters, the lady, the professor and the policeman) and their positions change continuously, calling for quick judgement.
- As you advance to later rounds the display time (seconds) for the panels shortens, and so the difficulty increases.

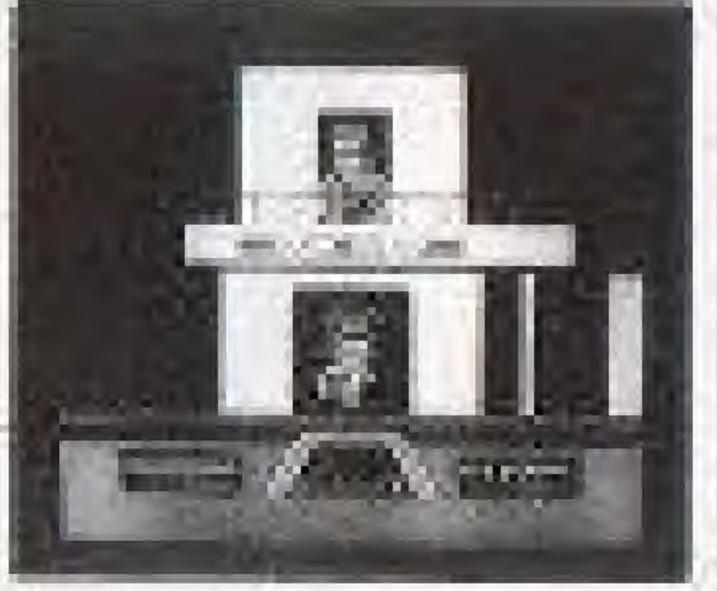

### Game B (Hogan's Alley B):

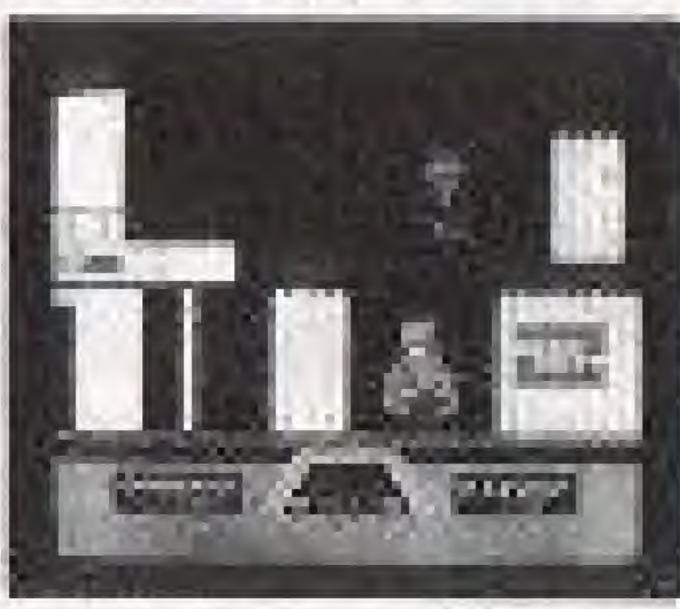

Find the gangsters from among the panels that appear in the windows of the buildings or from out of the shadows, and shoot them.

- This game is played in the same way as Game A; shoot only the panels that have gangsters drawn on them.
- Five panels will appear in the windows or out of the shadows in each scene; however, their positions and the order in which they appear vary.
- The scene will change five times. If there are no MISSES, five panels will appear in each scene. Five scenes (composed of 25 panels) make up one round.

 As the rounds progress, the panels will move more quickly and will face forward for shorter periods of time, making play more difficult.

Scene 4

Scene 5

#### Game C (Trick Shooting):

Shoot the cans as they are thrown, keeping them in the air and guiding them onto the platforms at the left.

- Cans are thrown in from the right side of the screen, so shoot!
- If you hit a can, it will fly up.
- Keep shooting at the cans to keep them in the air, and guide them onto the platforms at the left.
- The points for each platform are displayed at the platform. The points will flash, and be added to your score whenever you get a can onto one of the platforms.
- You are penalized a MISS if a can falls to the bottom of the screen before reaching a platform.

- You can avoid MISSES by placing cans on the safety platform, but you won't get a very high score.
- Five cans will be thrown out for each round.
   They will be thrown from various directions.
- The cans move faster with each round.

## Scoring

#### Games A and B:

The points you receive depend on which gangster panel you hit.

#### Game C:

The points shown at the platform where you land the can are added to your score.

## Ending the games

#### Game A:

The game will end when you have been penalized with more than 10 MISSES.

Games B and C:

The game will end when you have been penalized with more than 10 MISSES, even if you are in the middle of a round.
